

<b>Item No.</b> 12.	<b>Classification:</b> Open	<b>Date:</b> 30 October 2018	<b>Meeting Name:</b> Cabinet
<b>Report title:</b>		Land and Garages at Rye Hill Park, Nunhead	
<b>Ward:</b>		Peckham Rye	
<b>Cabinet Member:</b>		Councillor Leo Pollak, Social Regeneration, Great Estates and New Council Homes	

## **FOREWORD – COUNCILLOR LEO POLLAK, CABINET MEMBER FOR SOCIAL REGENERATION, GREAT ESTATES AND NEW COUNCIL HOMES**

At the end of May this year, more than 11,800 families (comprising over 25,000 people) were recorded on Southwark’s housing register in need of rehousing – behind these figures are stories of families living in overcrowded homes, delaying key life decisions due to extortionate housing costs, health problems linked to housing, children’s educational attainment and younger people’s ability to invest in themselves and their futures thwarted. In this context Southwark is resolved to maximise the overall social rented stock in our borough, including through pursuing an ambitious programme for building new council homes.

We will soon begin construction on twenty-three new council homes on this Rye Hill Park scheme, as part of our long-term commitment to build 11,000 new council homes by 2043. Unlike in previous periods of council house building where large sites lent themselves to comprehensive estate development and (relatively) simpler approaches to land assembly, today most of our development sites involve the repurposing of existing housing land with a greater risk of historic property rights emerging that may frustrate the process. We owe it to residents on our waiting list and to neighbouring residents who have contributed positively to the design and associated landscaping of these new homes to mitigate any risk to the development, even where the risk is remote. Cabinet is therefore recommended to approve the appropriation of the highlighted land from housing to planning and back to housing, an administrative process that will enable construction of the approved scheme to proceed with confidence.

## **RECOMMENDATIONS**

That cabinet:

1. Confirms that the land shown edged red on the plan at Appendix A that is currently held for housing purposes is no longer required for those purposes and approves the appropriation of the land to planning purposes to facilitate the carrying out of the development proposals for the area in accordance with section 226 of the Town and Country Planning Act 1990 and sections 122(1) and 122(2A) of the Local Government Act 1972.
2. Confirms that following completion of the appropriation at paragraph 1 the land shown edged on the plan at Appendix A will no longer be required for planning purposes and approves the appropriation of the land to housing purposes in accordance with section 9 of the Housing Act 1985 and sections 122(1) and 122(2A) of the Local Government Act 1972.

## BACKGROUND INFORMATION

3. The land in question is shown edged red on the plan at Appendix A. It is owned freehold by the council. It comprises lock up garages, an estate footpath and estate amenity land. This is a residential area with a predominance of council constructed housing. The locality is rated 2 by Public Transport Access Level ratings (0 is the worst and 6 is the best). Although the site has a modest rating Nunhead mainline station is within 900 metres and Peckham Rye Overground station is 1,500 metres away. The 343 and 484 buses all serve the locality.
4. On 25 February 2015 council assembly approved the current Council Plan. This sets out Fairer Future promises one of which is: *quality affordable homes*. Within this commitment is the policy to improve housing standards and build more homes of every kind. This promise restated previous policy to directly provide additional housing to meet the need for affordable housing within the Borough. At the July 2018 meeting of the cabinet, a report of the 'Southwark Conversation' was received. This noted 28% of respondents mentioned housing and a lack of social/council tenure was a clear worry. The cabinet resolved the 'Southwark Conversation' is to shape an updated Council Plan and a social regeneration framework.
5. In pursuit of the February 2015 approval, cabinet has received a number of reports in respect of sites to deliver new housing and the subject is brought forward to contribute further to the council's aspiration to provide 11,000 new homes by 2043.
6. On 7 February 2018 planning consent was granted for the redevelopment of the site to provide the following:
  - ❖ 5 x one bedroom flats
  - ❖ 14 x two bedroom flats
  - ❖ 4 x three bedroom flats
  - ❖ 1 parking space for each of the 2 wheelchair accessible units
  - ❖ Reprovided amenity land.
7. All twenty-three of the new housing units will be let at council rent levels.
8. The contract for the regeneration is currently being procured with a view to construction commencing as soon as possible.

## KEY ISSUES FOR CONSIDERATION

9. To enable the new homes to be built all the lock up garages on the site will be developed and some of the amenity land fronting the highway and adjacent to the housing block 34 – 120 Rye Hill Park will be incorporated. As part of the planning application a parking survey was commissioned that found *the area does experience a relatively high parking stress* but on street parking is nevertheless available in the locality. It also found only four of the lock up garages are actually being used for parking and this displaced parking can be accommodated on street.
10. The new housing will be provided in two blocks; one of four stories and the other of six that will be linked at an upper floor by a bridge. This unusual approach means the scheme respects and works with the topography of a sloping site.

11. The approved scheme is higher than what is presently on site and as part of the planning process a report considering the daylighting and sunlighting implications to nearby dwellings was commissioned. This concluded: *the proposal is respectful of its neighbours' access to daylight and sunlight and meets all of the respective guidelines.*
12. As part of the planning process around two hundred properties in the locality were directly consulted and four (2%) responses were received. These covered a variety of issues including type of housing, parking/transportation, loss of privacy, design, construction including management thereof and environmental impact.
13. The site may also be used by some residents in the locality as a pedestrian route. The risk therefore exists that one or more prescriptive rights of way may exist over the land. In general terms, a prescriptive right is one whereby someone other than the property owner gains use or ownership rights over the land by way of a period of use. Such rights are not required to be registered at the Land Registry so may only emerge when interfered with. This presents a potential risk to the proposed development as the holder of such a right may seek to enforce it by applying to the court for an injunction to halt the development that is interfering with the right.

### **Appropriations**

14. The appropriation of land refers to the process whereby a council alters the purpose for which it holds land. Where land has been appropriated for planning purposes third party rights including rights of light and prescriptive rights of way enjoyed over the land are overridden. The beneficiaries of such rights may however claim compensation [equal to the loss in value of their property caused by losing the right] but cannot seek an injunction to delay or terminate the development. This will give the council the certainty that having commenced construction works a person with the benefit of an unregistered (with the Land Registry) right over land (such as a prescriptive right of way) cannot apply to the court to have the development stopped. This is a very important tool in enabling development to proceed on urban sites. As mentioned, the beneficiary of any such right is entitled to financial compensation for the loss of the right. The Council could either insure against such compensation claims but this will be costly or accept the risk of an injunction that may be fatal to development or result in perhaps significant unquantifiable costs.
15. The compensation persons affected by the loss of light may be entitled to is based on the value of their properties before the right has been infringed versus the value of the property with the infringed right. This compensation is based on the diminution in value of the affected property. If agreement between the parties is not possible it will be determined by the Upper Tribunal (Lands Chamber).
16. In this case, it is recommended that the land be appropriated from housing purposes to planning purposes and thereafter back to housing purposes as to hold the land for planning purposes may cause adverse financial implications (see below).
17. The rationale for the appropriations of the land shown at Appendix A is set out at Appendix B and cabinet is recommended to approve the appropriations.

18. The appropriation stages is summarised below:

Land currently held for housing

Appropriate from housing to planning	↓	Third party rights infringed by development cannot be enforced by injunction
Appropriate from planning to housing	↓	Construction of new housing can proceed

19. Cabinet has received a number of similar reports to enable direct delivery of housing schemes to proceed where the same strategy was recommended and approved.
20. The amenity land around the garage compound shown shaded on the plan at Appendix A is (non-statutory) open space and before the council can appropriate such land its intention to do so must be advertised by way of a public notice for two consecutive weeks in a local newspaper and it must consider any objections made as a result of the appropriation intention. Public notices advising of the intention to appropriate the shaded land appeared in the 27 September and 4 October 2018 editions of the Southwark News with a closing date of 19 October for any objections and none were received.

**Rationale for recommendations**

- 21.
- To mitigate against the construction of new social housing being frustrated or delayed by injunctions
  - To de-risk the construction project so as to encourage the maximum number of bidders and achieve a lower construction cost.
  - Appropriation back to housing from planning purposes avoids any potential adverse accounting implications.
  - Taking forward Fairer Future promise of *quality affordable homes*.

**Community impact statement**

22. The existing Council Plan was the subject of extensive community consultation as is the emerging one (see paragraph 4) that gave rise to the Fairer Future promise of *quality affordable homes*. The recommendations herein will enable the construction of nineteen new homes to proceed. New homes will improve the quality of life for their residents. Four persons consulted as part of the planning process did comment upon perceived impacts of the proposed scheme.
23. The Equality Act 2010 requires the council in the exercise of its functions to have due regard to the need to:
- eliminate discrimination;
  - advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it; and

c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

24. Relevant protected characteristics for the purposes of the Equality Act are:

- Age
- Civil partnership
- Disability
- Gender reassignment
- Pregnancy and maternity
- Race
- Religion or belief
- Sex and sexual orientation.

25. In carrying out appropriation the council must have due regard to the possible effects of such appropriation on any groups sharing a protected characteristic in order to discharge its public sector equality duty.

26. Based on the information available, the council does not believe that there are any particular groups sharing a protected characteristic that will be adversely impacted by the proposals and delivery of the project may have a positive impact on some protected characteristics.

### **Financial Implications**

27. The construction of the new homes will have a significant cost and an approved budget exists for this. The budget will need to make provision for any compensation claims for diminution in value that may arise as a consequence of the construction of the new homes. The budget will be reviewed when the procurement process mentioned at paragraph 8 has been completed.

28. Where land is appropriated from the housing revenue account to the general fund there is a transfer of debt between the accounts. When land is appropriated from general fund to the housing revenue account this debt transfer is reversed.

### **SUPPLEMENTARY ADVICE FROM OTHER OFFICERS**

#### **Director of Law and Democracy**

29. The report recommends the appropriation of council-owned land for planning purposes, and thereafter, the appropriation of that land for housing purposes.

30. A council holds land and property for a variety of statutory purposes in order to perform its functions. A council is authorised by virtue of section 122 of the Local Government Act 1972 (“the 1972 Act”) to appropriate land within its ownership for any purpose for which it is authorised to acquire land by agreement, where is

no longer required for the purpose for which it is held immediately before the appropriation.

31. The land must already belong to the council. Paragraph 3 of the report confirms that the land to be appropriated is in the council's freehold ownership.
32. The land must be no longer required for the purpose for which it is currently held. The report confirms at paragraph 8 of Appendix B that the land is no longer required for housing purposes.
33. The purpose for which the council is appropriating the land must be authorised by statute. It is proposed that the land is held for planning purposes. This is a purpose which is authorised by statute. Section 246 of the Town and Country Planning Act 1990 ("TCPA 1990") defines such purposes as, inter alia, those for which can be acquired under ss226 or 227 of that Act. Section 227 provides that a council may acquire land by agreement for any purposes for which it is authorised to acquire land compulsorily by s226 TCPA 1990.
34. The purposes for which a council can acquire land pursuant to s226 TCPA 1990 include purposes "which it is necessary to achieve in the interests of the proper planning of an area in which the land is situated." S226 also authorises the acquisition of land "... if the authority think that the acquisition will facilitate the carrying out of development, re-development or improvement on or in relation to the land." In the case of either s226 or s227 the acquiring authority must be satisfied that whatever development proposals it has for the land in question these are likely to "contribute to the achievement of any one or more of the following objects – (a) the promotion or improvement of the economic well-being of their area; (b) the promotion or improvement of the social well-being of their area; (c) the promotion or improvement of the environmental well-being of their area." The council's plan to build new homes on the land, of which all are council homes for rent, is capable of falling within all three categories.
35. Section 203 of the Housing and Planning Act 2016 came into force on 13 July 2016. This section contains a power to override easements and other rights, and it replaces s237 TCPA.

S203 says :

- "(1) A person may carry out building or maintenance work to which this subsection applies even if it involves
  - (a) interfering with a relevant right or interest...
- (2) Subsection (1) applies to building or maintenance work where –
  - (a) there is planning consent for the building or maintenance work,
  - (b) the work is carried out on land that has at any time on or after the day on which this section comes into force
    - (i) become vested in or acquired by a specified authority or
    - (ii) been appropriated by a local authority for planning purposes as defined by section 246(1) of the Town and

Country Planning Act 1990 [*i.e. for purposes for which an authority can acquire land under ss226 and 227*]

- (c) the authority could acquire the land compulsorily for the purposes of the building or maintenance work, and
  - (d) the building or maintenance work is for purposes related to the purposes for which the land was vested, acquired or appropriated as mentioned in paragraph (b).”
36. What this means is that where land has been appropriated for planning purposes building work may be carried out on land even if this interferes with rights or interests if there is planning consent for the building work; and the work must be for purposes related to the purposes for which the land was appropriated, in this case planning purposes. By s204 those third party rights are converted into an entitlement to compensation to be calculated in accordance with ss7 and 10 of the Compulsory Purchase Act 1965.
37. This report confirms that the work being done on the land will be done in accordance with planning permission. Once the land has been appropriated and s203 triggered, that work will be authorised even where it interferes with third party rights.
38. Following the appropriation of the land for planning purposes it is recommended that the land is appropriated for housing purposes, as the land is to be used for the provision of new housing. At that point the land will no longer be required for planning purposes and will be appropriated for housing purposes.
39. Section 122(2A) of the 1972 Act provides that where land to be appropriated pursuant to section 122(1) forms part of an open space, a council must advertise their intention to appropriate the land in a local newspaper for two weeks and consider any objections to the proposed appropriation. The report confirms that notices were published in Southwark News on 27 September and 4 October 2018.

#### **Strategic Director of Finance and Governance (H&M18/049)**

40. The strategic director of finance and governance notes the recommendation to appropriate land as described in order to facilitate regeneration and the building of new homes as reflected in the report. This land appropriation is proposed to occur in such a way that it will have a neutral financial impact. This scheme forms part of the council's new homes direct delivery programme and any associated costs will be contained within the housing investment programme.

#### **Strategic Director of Housing and Modernisation**

41. This report ensures that the proposed development of the Rye Hill Park scheme can progress with the avoidance of legal challenge. The prescriptive access rights issues from the scheme are not considered significant but nevertheless exist. Extensive consultation with local residents, together with a commitment to make 50% of the new social rented homes available to local residents in housing need leads the way in which social housing can be developed in inner cities. The scheme is a contribution to the council's pledge to build 11,000 new homes by 2043.
